OPTIONS & ACCESSORIES

- ☐ Additional Dish Racks
- ☐ 17" Stand Stainless Steel
- ☐ 8" Leg Stand (see undercounter accessories for more detail)
- ☐ 3 Phase Connection (prewired at factory)
- ☐ 1" Roller Kit (includes 4 casters)
- ☐ Power cord kit
- ☐ Chemical alarm kit (mounted)
- ☐ Drain water tempering kit (unmounted)

STANDARD FEATURES

- **Multi-Level Racking System** allows for maximum flexibility and increases wares capacity simultaneously washing dishes, cutlery and utensils
- **Wash Refresh** – Automatically drains the water for the next cycle, ensuring heavily soiled wares are washed with new fresh water
- **Energy Star® Certified**
- **Multi Power** – this model is 208-240 volts and can convert from single to three phase in-field with ease. This "all-in-one" machine is for all applications
- **StemSure™** – Soft start to protect glasses and dishes from chipping and breaking
- **Rinse Sentry** – extends the cycle time to ensure 180°F+ (82°C) final rinse
- **Extended Wash Button** ensures stubborn residues are removed
- **Built-In Electric Booster**
- **2 kW Tank Heater** maintains optimum wash temperatures
- **316 Stainless Steel Tank** for improved corrosion resistance, an industry exclusive, all 130, 230 and 330 tanks are stainless steel
- **15-3/4" Overall Chamber Height With Two Interior Racks**
- **Quiet Double - Wall Construction**
- **Pumped Drain**
- **Detergent And Rinse Pumps Standard**
- **Control Mounted Prime Switches For Chemical Pumps**
- **Pumped Final Rinse**
- **Stainless Steel Top & Sides Included**
- **High Pressure Wash Pump, 1 Hp**
- **Delime Feature Built Into Controls For Ease Of Use**
- **Service Diagnostics For Easy Troubleshooting**
- **Digital Controls**

SPECIFIER STATEMENT

Specified unit will be Champion model UH130B MAX multi-level racking system undercounter high temperature dishwashing machine with built-in booster heater. Features 288 second total cycle, Rinse Sentry, detergent and rinse aid pumps, stainless steel top and side panels. Constructed of stainless steel.

1 year parts and labor warranty.

Note: Vent hood is not recommended, as unit does not produce excessive steam.

Note: Always follow local building code guidelines.

Certifications apply to the machine only.

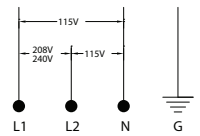
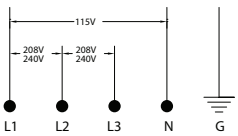
Single Phase



Three Phase



Warning: Plumbing, electrical connections should be made by qualified personnel who will observe all the applicable plumbing, sanitary and safety codes and the National Electrical Code.

Plumbing Notes: Because of the variation in house-supplied steam and water pressures, steam and water pressure regulating valves (PRVs) may be needed. (Water PRV is standard on machines with booster.) The PRVs can either be purchased from Champion or obtained locally.

Champion does not endorse using on-demand (tankless) water heating systems, as well as PEX and other plumbing materials that may limit water flow, as these could impair machine performance. For optimal results, we recommend using appropriately sized conventional hot water tanks and standard copper water supply lines that adhere to our specifications. Not following these recommendations may void the manufacturer's warranty.

Water Hardness: Less than 3.5 grains/gallon.
